Break and Lunch arrangements

In September we will still be using our fingerprint biometric payment system. We have placed hand sanitizer next to each station and students will be instructed to use them before and after each use.

Our catering company will be using disposable containers and cutlery for food.

Students may bring with them a packed lunch if they wish. Please note energy drinks are not permitted. Students will be requested not to share food or drinks at this time.

In dining areas furniture has been reorganised to promote social distancing.

Students will be expected to clear their own litter from their tables when they have finished eating.

Break and lunchtimes will be staggered and year groups who are scheduled at the same time will use separate dining areas, social spaces and toilets.

Initially there will be no dining facilities available before school.

Break and Lunch arrangements

Lunch money accounts will need to be topped up virtually via the ParentPay system.

<https://www.parentpay.com/>

If you are having difficulty with online transfer you can top up ParentPay accounts with cash via the PayPoint service in several local shops.

To find out where is possible please use this the link below

<https://consumer.paypoint.com/cashout>

Students in receipt of Free School Meals will have their accounts topped up as usual with the amount they are entitled to.
